Frequently Asked Questions:

Question: CBCA is sending me notices stating that my child is missing shots, but my doctor’s office says my child is “up to date” on all immunizations. Why is this happening?

Answer: 1) Your child may have received additional shots since you last provided CBCA with a copy of his or her shot record. 2) There are several differences between what immunizations the average physician *recommends* for any given age and those immunizations *required* by the State of Texas *for all children enrolled in licensed childcare facilities*. (CBCA is fully licensed and regulate by the Texas Department of Family and Protective Services)

Question: I’m not comfortable having my little one receive so many shots at such a young age. Do I have to get my child all of these shots now?

Answer: No*, **HOWEVER**, in *order for your child to attend* a licensed childcare facility they **MUST** receive all of the immunizations required by law **or** you may contact the Texas Dept of State Health Services for an official Affidavit for Exemption From Immunizations for Reason of Conscience form. (*immunization schedules can differ based on personal decisions made between parent and physician.)

Texas Department of Family and Protective Services Minimum Standards for Child Care Centers

§746.613 What immunizations are children in my care required to have?

(a) Each child enrolled or admitted to childcare centers must meet applicable immunization requirements specified by the Texas Department of State Health Services.
This requirement applies to all children in care from birth through 17 years of age.

(b) Except as otherwise provided in this division, all immunizations required for the child’s age must be completed by the date of admission.

§746.623 What documentation is acceptable for immunization records?

(a) Documentation on file at the childcare center may be the original immunization record or a photocopy of the record. An official immunization record generated from a state or local health authority, such as a registry, or a record received from school officials including a record from another state, is also acceptable.

(b) The immunization record must include:
 (1) The child’s name and birth date;
 (2) The number of doses and vaccine type;
 (3) The month, day, and year the child received each vaccination; **and**
 (4) The signature or stamp of the physician or other health care professional who administered the vaccine.

TEXAS DEPARTMENT OF STATE HEALTH SERVICES
Effective September 1, 2005, House Bill (HB) 1316 requires that children attending child-care facilities be vaccinated against Invasive Pneumococcal and Hepatitis A Diseases.

Children attending child-care who *are two years of age or older* will need two doses of the **Hepatitis A** vaccine separated by six to 18 months. The pneumococcal conjugate vaccine (**Prevnar/PCV**) is required for all children attending child-care facilities *aged 2 months through 59 months of age*.
